

LAMASY

ERP MODERN UNTUK LAUNDRY UMKM
INDONESIA

AI-First. Multi-Outlet. Indonesia-Made.

Investor Brief

Seed Round · 2026

Ignatius Rizky

Founder & CEO

rizkyignatius@gmail.com · lamasy.harpy.id

Executive Summary

LAMASY adalah platform SaaS ERP modern untuk industri laundry di Indonesia — sektor yang growth tinggi tapi underserved oleh teknologi enterprise.

Kami menawarkan operasional end-to-end dalam satu platform: POS, produksi, antar-jemput, inventori, keuangan compliant SAK EMKM, plus integrasi AI yang menjadikan kami ERP pertama di Indonesia yang AI-first untuk segmen laundry.

Kompetitor utama (Smartlink, Cuci.Co) belum integrasi AI. LAMASY membangun moat lewat AI-driven operations: briefing harian otomatis, churn detection, anomaly alerts, dan natural-language data chat — semua dengan business model pay-as-you-use coin.

Highlight Investasi

- **Pasar besar dan terfragmentasi:** ~50.000+ usaha laundry di Indonesia, mayoritas masih spreadsheet/manual.
- **Product live & functional:** Platform sudah jalan di lamasy.harpy.id dengan tenant aktif transaksi.
- **AI-first differentiation:** 11 fitur AI live (briefing, chat, churn, anomaly, dll) — moat sulit di-replikasi.
- **Multi-tenant scalable:** Single platform handle 1 owner sampai chain N-outlet dengan HQ konsolidasi.
- **Indonesia-native:** UU PDP compliant, SAK EMKM laporan, Bahasa Indonesia interface, Fonnte WA integration.

The Problem

Bisnis laundry UMKM di Indonesia operate dengan tools yang fragmented, manual, dan tidak scale.

Pain Points yang Kami Selesaikan

1. Operasional masih manual

Mayoritas laundry pakai buku, WhatsApp, dan spreadsheet untuk tracking order. Lupa cucian, hilang nota, miscommunication staff → customer complain.

2. Multi-outlet tanpa konsolidasi

Owner punya 2-3 outlet harus check satu-satu. Tidak ada dashboard konsolidasi keuangan/stok/karyawan. Sulit ambil keputusan data-driven.

3. Tidak ada integrasi self-service customer

Customer harus telepon untuk cek status. Tidak ada portal untuk lihat poin loyalty, saldo deposit, atau history. Friction tinggi.

4. Antar-jemput belum digital

Kurir lewat WA grup, sulit assign + track. Tidak ada bukti delivery (foto + signature).

5. Laporan keuangan tidak compliant

Mayoritas laundry tidak punya laporan SAK EMKM proper → masalah saat lapor pajak / akses pinjaman bank.

6. Tidak ada AI insight

Owner pegang data ribuan transaksi tapi tidak tahu apa yang penting. Pattern customer, anomali transaksi, churn risk — semua invisible.

Solusi parsial yang ada (Smartlink, Cuci.Co): address operasional tapi tanpa AI, tanpa multi-tenant proper, dan UI yang outdated. LAMASY membangun next-generation experience.

Market Opportunity

Market Size Indonesia

Metric	Estimasi	Sumber
Total usaha laundry Indonesia	~50.000+	Industry estimates
Pertumbuhan industri YoY	12-15%	Asosiasi Laundry
TAM (Total Addressable Market)	~Rp 200 Miliar/tahun ARR	@ Rp 4 jt/tenant/tahun
SAM (Serviceable Addressable)	~Rp 60 Miliar/tahun	30% market reachable
SOM (3-tahun realistic)	~Rp 6 Miliar/tahun	10% SAM penetration

Mengapa Sekarang

- **AI accessible & affordable:** Claude API mature, harga turun → bisa build AI features dengan margin profit.
- **Post-COVID acceleration:** UMKM Indonesia mulai aware digitalisasi setelah COVID-19.
- **UU PDP enforcement:** UU 27/2022 efektif → tenant butuh platform compliant untuk customer data.
- **SAK EMKM mandatory:** Tax compliance push laundry untuk pakai system proper.
- **Mobile payment matang:** QRIS adoption tinggi → integrasi cashless friction-low.

Kompetitor

Kompetitor	Approach	AI?	Multi-outlet?	Kelemahan
Smartlink	Desktop legacy	✗	Limited	UI outdated, Excel-based
Cuci.Co	Web SaaS	✗	Basic	No AI, no integrasi mendalam
DIY Spreadsheet	Excel/Google Sheets	✗	No	Manual, error-prone
WhatsApp + Buku	Manual	✗	No	Hilang data, tidak scalable
LAMASY	AI-first SaaS	✓ 11 fitur	✓ HQ console	—

Solution: LAMASY Platform

Three-layer SaaS platform yang serve dari kasir frontline sampai founder LAMASY platform.

Arsitektur

LAMASY dirancang 3-lapisan akses, masing-masing dengan UI yang dioptimalkan untuk audience-nya:

- **Outlet** (operasional harian) — kasir, kurir, staff produksi. ~25 page. Mobile-first PWA.
- **HQ** (multi-outlet owner) — konsolidasi metrik + AI tools premium. ~30 page.
- **SuperAdmin** (platform admin LAMASY) — tenant management + billing + support. ~24 page dengan AI Command Center design.

Core Modules

Operasional

- POS dengan layanan inline-create + estimasi otomatis
- Produksi 6-tahap dengan signature canvas + foto + scan QR
- Antar-jemput dengan kurir mobile app (foto + signature delivery proof)
- Self-service mesin untuk laundromat (customer scan QR → booking sendiri)
- Inventori dengan auto-deduct bahan + alert stok kritis + PO PDF
- POS Voice Order — input order via suara (AI parse) + mode Offline (order saat internet mati → sync otomatis)
- Checklist operasional dengan opsi wajib lampirkan foto per item

Customer-Centric

- Portal pelanggan via QR di struk (read-only, secure)
- Public order tracking tanpa login
- Member tier system (Bronze/Silver/Gold/VIP) dengan auto-promotion
- Sistem poin + reward catalog
- Deposit wallet untuk customer regular
- Referral 'ajak teman' — kode/link share, poin dua-duanya saat order pertama teman lunas (growth loop viral)

Keuangan

- Kas harian per outlet + mutasi antar kas
- Aset tetap + liabilitas + jurnal manual
- Laporan SAK EMKM compliant: Neraca, Laba Rugi, Arus Kas (auto-generate)
- Piutang B2B tracking

HR & Payroll

- Master karyawan + assign ke outlet
- Absensi (clock in/out)
- Penggajian dengan komponen custom
- Komisi rekap per karyawan
- Bonus rule target-based per outlet
- Absensi selfie + geofence ketat + jadwal shift (telat/lembur otomatis)
- Bagi-hasil / profit-sharing ke slip gaji

AI Differentiation

11 fitur AI live yang membuat LAMASY ERP pertama di Indonesia dengan AI deep integration untuk laundry.

Positioning: *ERP modern dengan integrasi AI pertama di Indonesia untuk laundry SME.*

11 AI Features Live

Fitur	Value untuk Tenant	Tech
AI Briefing Harian	Auto-summary kinerja hari, save 15 mnt/hari	Claude Sonnet
AI Chat	Owner tanya data natural language	Claude Sonnet
AI Churning	Deteksi customer mau hilang sebelum hilang	Claude Haiku
AI Insight	Pattern + anomaly detection	Claude Sonnet
AI Migration Mapper	Import Excel kompetitor → mapping otomatis	Claude Sonnet
AI Anomaly Alerts	Real-time transaction watch (fraud detect)	Claude Haiku
AI Daily Report	Auto-generated daily report HQ	Claude Sonnet
AI Generate Nota	Smart nota template generation	Claude Haiku
AI Send WA	AI-rewrite WA message ke customer	Claude Haiku
AI Voice Order	Input order via suara → form POS otomatis	Claude + STT
AI Scan Struk	Foto struk belanja → entri kas otomatis	Claude Vision

Defensibility / Moat

- **Data flywheel:** Semakin banyak tenant, semakin banyak data → AI cache hit rate naik, cost turun, margin naik.
- **AI usage tracking sophisticated:** Per-feature daily limit, cost vs revenue per tenant — kompetitor harus build dari scratch.
- **Pricing innovation:** Coin-based pay-as-you-use untuk AI features — fairness tinggi, transparent.

- **Brand association:** First-mover di Indonesia untuk 'AI ERP laundry' — defensible positioning.

Business Model

Revenue Streams

1. Setup Fee (One-time)

Onboarding tenant baru dengan provisioning, data migration assistance, training. Berkisar Rp 500K – Rp 2 jt tergantung kompleksitas (single outlet vs chain).

2. Subscription Tier (Recurring)

Tier	Harga/Bulan	Outlet Limit	Coin Included
Starter	Rp 99.000	1 outlet	1.000 coin
Growth	Rp 249.000	3 outlet	5.000 coin
Chain	Rp 599.000	Unlimited	20.000 coin
Enterprise	Custom	Unlimited + SLA	Custom

**Pricing indicative, subject to market validation.*

3. Coin Top-Up (Usage-Based)

Coin extra untuk fitur AI premium beyond subscription quota. Misal: AI Chat 50 coin/query, AI Briefing 10 coin/generate.

Pack	Coin	Harga	Per-Coin
Starter Pack	5.000	Rp 50.000	Rp 10
Popular Pack	12.000	Rp 100.000	Rp 8,3
Bulk Pack	30.000	Rp 200.000	Rp 6,7

Unit Economics (Projected)

Metric	Starter	Growth	Chain
MRR per tenant	Rp 99K	Rp 249K	Rp 599K
Setup Fee	Rp 500K	Rp 1 jt	Rp 2 jt
Coin top-up avg	Rp 25K/bln	Rp 75K/bln	Rp 200K/bln
ARPU monthly	Rp 124K	Rp 324K	Rp 799K
Gross margin	78%	82%	85%

Strategi: AI sebagai growth engine — bukan cost center. Coin top-up margin 70-80% setelah Anthropic API cost. Higher engagement = higher coin spend = higher revenue.

Traction & Current State

Product Maturity

✓ Platform LIVE di production (lamasy.harpy.id) dengan tenant transaksi aktif.

Technical Stats

Component	Count	Notes
Database Tables	~125	Comprehensive coverage
Outlet Pages	~25	Operasional harian
HQ Pages	~30	Multi-outlet management
SuperAdmin Pages	~24	Platform admin
Core Libraries	30	Reusable PHP classes
AI Features	11	Production-grade
RBAC Roles (default)	5	+ custom roles
RBAC Permissions	29	Granular per module
Auto-deploy Time	~15 detik	git push to live

What's Already Built

- ✓ End-to-end POS + produksi + antar-jemput
- ✓ Multi-outlet HQ konsolidasi dengan impersonate
- ✓ Customer portal + public tracking + self-service mesin
- ✓ Laporan keuangan SAK EMKM compliant auto-generate
- ✓ 11 AI features production dengan rate limiting + cache + cost tracking
- ✓ SuperAdmin dashboard + RBAC + billing + support ticket system
- ✓ Smartlink (kompetitor) Excel migration dengan AI mapping
- ✓ PWA installable + mobile-first responsive design
- ✓ UU PDP + SAK EMKM + UU ITE compliance

Competitive Position

Capability	Smartlink	Cuci.Co	LAMASY
AI integration	✗	✗	✓ 11 fitur
Multi-outlet HQ console	Limited	Basic	✓ Full
Customer portal	✗	Basic	✓ Full

Capability	Smartlink	Cuci.Co	LAMASY
Antar-jemput integrated	✗	Limited	✓ Mobile app
SAK EMKM auto-report	✗	✗	✓
Self-service mesin	✗	✗	✓
Smartlink migration tool	—	✗	✓ AI-mapped
Modern UI	✗	Outdated	✓
PWA mobile	✗	✗	✓

Roadmap & Vision

Next 6 Months (Post-Seed)

- **Sales & Marketing:** Target acquisition 100+ tenant aktif via direct sales + content marketing + komunitas asosiasi laundry.
- **Mobile Native:** Launch native app (Capacitor wrapper) untuk PlayStore + AppStore presence.
- **Payment Gateway:** QRIS integration + Midtrans untuk auto-topup coin tanpa friction.
- **WhatsApp Business API:** Upgrade dari Fonnte ke WA Business API untuk volume + reliability.
- **2FA + Audit Viewer:** Security hardening untuk enterprise-ready posture.

12-18 Months Vision

- **Marketplace ekspansi:** Service marketplace di portal customer (cross-sell antar laundry).
- **AI Agent autonomous:** AI yang bisa execute action — auto-reply WA, auto-create promo, auto-flag refund.
- **Embedded finance:** Pinjaman modal kerja untuk tenant berdasarkan revenue data (partnership fintech).
- **Vertical expansion:** Adaptasi platform untuk vertikal serupa: salon, klinik kecantikan, jasa kelola pakaian premium.
- **Regional expansion:** Setelah dominasi Indonesia, ekspansi ke Vietnam/Filipina (laundry biz pattern serupa).

Team

Founder

Ignatius Rizky · *Founder & CEO*

Bertanggung jawab atas product, engineering, dan business strategy. Building LAMASY dari scratch sebagai solo founder dengan AI-assisted development workflow.

Skills & Background

- Full-stack engineering: PHP, JavaScript, MariaDB, system architecture
- Domain expertise: deep understanding of laundry SME pain points
- AI engineering: production integration dengan Anthropic Claude (prompt engineering, RAG patterns, cost optimization)
- Indonesia market knowledge: regulasi UU PDP, SAK EMKM, ekosistem WA/QRIS

Team Expansion Plan (Post-Seed)

Role	Priority	Why
Sales Lead	High	Drive tenant acquisition + komunitas
Customer Success	High	Onboarding + retention + support
Engineer #2	Medium	Velocity + bus factor
Content Marketer	Medium	SEO + edukasi pasar
Designer (UI/UX)	Low	Already strong baseline

The Ask

Funding

Seeking: **Rp 1,5 – 2 Miliar (Seed Round)**

Use of Funds

Kategori	% Alokasi	Tujuan
Sales & Marketing	40%	Hire sales + CS, marketing, komunitas, event
Engineering	30%	Hire 1-2 engineers, AI advanced features
Operations	15%	Customer support, training, content
Infrastructure	10%	Production scaling (Hostinger → AWS/GCP), monitoring
Working Capital	5%	Buffer untuk runway 18-24 bulan

Milestones (Post-Funding)

- Bulan 3:** 50 tenant aktif, MRR Rp 10jt+
- Bulan 6:** 150 tenant, MRR Rp 30jt+, native app launch
- Bulan 12:** 500 tenant, MRR Rp 100jt+, profitability dalam jangkauan
- Bulan 18:** 1000+ tenant, MRR Rp 250jt+, ready for Series A

Why Invest in LAMASY

- Live & functional product** — bukan deck, bukan prototype. Risiko technical execution rendah.
- Defensible moat via AI** — kompetitor butuh 12-18 bulan replicate.
- Market timing optimal** — UMKM digitalisasi + AI affordable + regulasi push.
- Scalable economics** — SaaS dengan margin 80%+ at scale.
- Founder commitment** — full-time, technical depth, market obsession.

Appendix: Differentiator Summary

10 Reasons LAMASY Wins

5. **AI-First ERP** — positioning unik 'ERP modern dengan integrasi AI pertama di Indonesia untuk laundry'.
6. **Multi-tenant + Multi-outlet** chain-friendly dengan HQ konsolidasi view.
7. **Self-service customer** via QR struk (track + portal + reward).
8. **Antar-jemput integrated** dengan kurir mobile app, signature + foto, no 3rd party needed.
9. **SAK EMKM compliant** laporan keuangan otomatis untuk pajak.
10. **Smartlink migration** AI-mapped Excel import dari kompetitor utama.
11. **Sistem coin** pay-as-you-use untuk premium features — fairness + transparency.
12. **Comprehensive audit** semua action sensitif logged → compliance-ready.
13. **Modern UI design** dual-theme professional (Ponytail outlet + AI Command Center SA).
14. **PWA-ready** installable ke device tanpa app store dependency.

Thank You

Mari bicarakan lebih lanjut.
